

## **Kamloops Rowing Club April 2022 Communicable Disease Prevention Plan**

Past restrictions for the Covid Pandemic ( 2020-2021) have been lifted due to decreasing infection numbers and existing public vaccination rates. Thus, the Club Board of Directors, along with direction from ViaSport BC, Rowing BC and Rowing Canada Aviron, has put into place a **Communicable Disease Prevention Plan ( CDPP)** for our Club Operations this season. Should infection numbers change and Public Health Orders re-mandate tighter restrictions, the KRC Covid Pandemic Plan will respond accordingly as directed by sport governing bodies provincially and nationally.

**A CDPP means Club Operation and each Member's Behaviour will mirror what is described below. Failure to maintain appropriate and safe behavior will carry one warning from Club Executive, then cancellation of membership for the season.**

- Vaccination Status/and other tracking information will not be gathered at the Club this year unless PHOs change and direct us to resume these practices.
- Masks are optional and a personal choice, but highly encouraged to protect yourself and others. If you can't maintain a 2m distancing between yourself and others while outside the field of play ( eg. not in a rowing shell on the water), consider masking.
- If you are not feeling well, do not come to the Club until you are well.
- Disinfecting your hands 3x or more when you are with us: when you arrive at the boathouse, when you come off the water and head to the boathouse to begin cleaning/disinfecting equipment, and, finally, when you leave to return home.
- All Equipment will be washed with soap then disinfected after use. This requires you to wear gloves for skin protection from the disinfectant. This will be followed for the full season.
- Be cognizant of others and maintain a 2m space from others while onsite and outside the field of play.
- Follow all maximum occupancy signs onsite ( eg our boathouse has a maximum of 4 members at one time in the boathouse/ onsite washroom maximum 1 at one time.)
- KRC members will provide their own mask. KRC members will supply their own gloves to be used during disinfection of equipment. Any KRC Club inventory of masks or gloves used by members who forget to supply their own will be charged \$2/item, payable at their next row at the club

**Signed,  
The 2022 KRC Board of Directors**
